

YOU ARE INVITED TO:

Water – Understanding its Trails and Trials

Florida Department of Environmental Protection – N.P.D.E.S. Permit Requirement

When: Wednesday, Aug 15th at 1:30 pm.

Where: City Council Chambers

Two Part Presentation Includes:

- 25 minute PowerPoint presentation entitled '**Save our Planet**' is an eye-opening awareness of water conservation and protection as related to the Brooksville area. Also discussed is the City's responsibility to effectively minimize contaminants getting into ground water, by applying '*Best Management Practices*' in day to day work related activities.
- 30 minute video presentation entitled '**Waters Journey – Hidden Rivers of Florida**'. The video takes you on an underground adventure following and mapping the flow of water through a series of complicated and dangerous caves and caverns. Emphasized are the effects of mismanagement of our water resources and the need to reevaluate how we think, live, work, and play in and around this valuable commodity.
- Conclude with any comments, questions and or discussion.
